

27.Yahtzee: ChatGPT4 response (com.tum.yahtzee_1_src_oracle_1(38).mhtml)

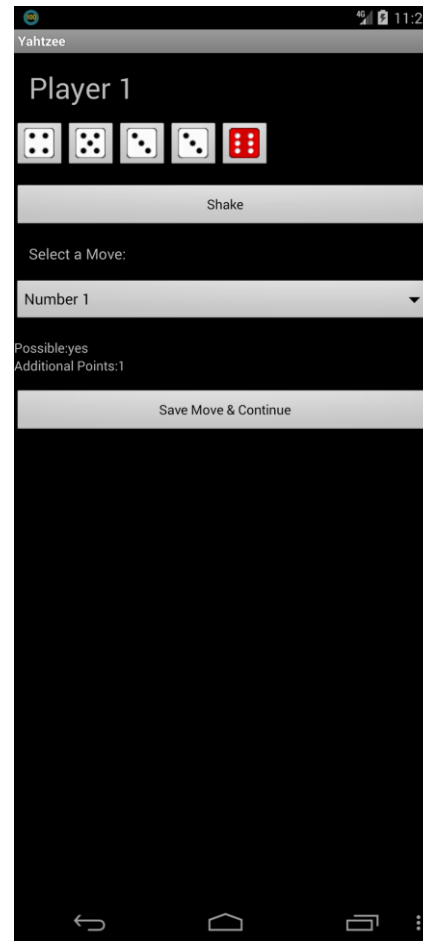

Yes, there is a UI error. The action sequence indicates that selecting a move labeled "Number 1" is possible (as indicated by the text "Possible: yes" and "Additional Points: 1"), but the screenshot displays an error message saying "The selected move isn't possible!" This contradiction between the action sequence text and the displayed error message is a discrepancy.

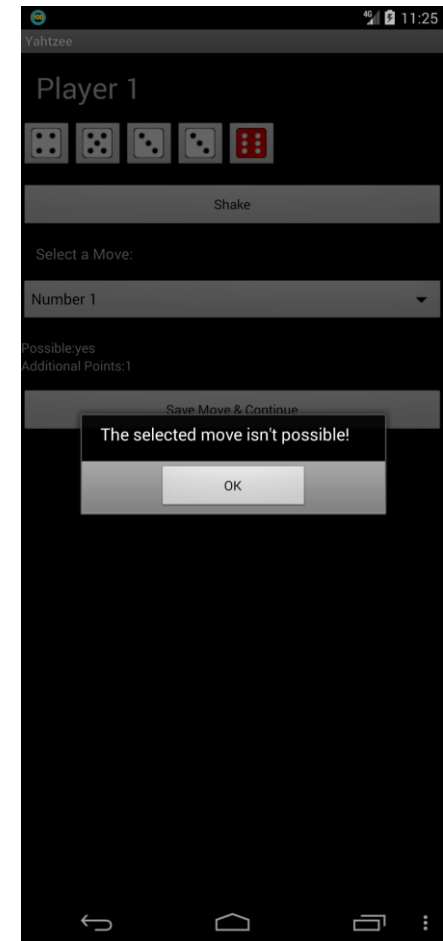

Input random numbers and
Click "play"

Click "Shake"

Click "Save Move & Continue"

In the background, Possible is Yes,
but the pop-up window say "isn't possible!"
