

10. aagtl: ChatGPT4 response (com.zoffcc.applications.aagtl_31_src_oracle_0(20).mhtml)

Yes, there is a UI error in the screenshot. The error message "Failed getting top 100 track :(" does not correspond to any text described in the provided app sequence actions. Also, there are graphical elements (red lines, blue and yellow dots) that are not described in the text of any page, and thus may be indicative of a UI error or an unfinished interface. The app sequence also does not describe an error message or these graphical elements as part of the expected UI.

Final decision: UI error detected.

On restart the app, it reports "Fail getting top 100 track :'C"
