

29. Zooborns: ChatGPT4 response (org.smerty.zooborns_14_src_oracle_0(14).mhtml)

Yes, there is a UI error. The screen is completely black and does not display any elements that should be present according to the provided action sequence. At the very least, there should be clickable buttons with 'content-desc: back button', 'content-desc: ZooBorns;', and other elements as described in the action sequence, but none of these are visible.

Final decision: UI error present.

On start up, it displayed nothin, rather than displaying any photo.
