2. Anymemo ChatGPT4 response (anymemo-stable-8.3_oracle_0(37).mhtml)

The output indicates that after clicking on "Look up in a dictionary", the application attempts to launch an external dictionary app which is not installed, resulting in an error message. This error suggests a lack of a fallback or error handling mechanism when the expected dictionary app is not available on the device.
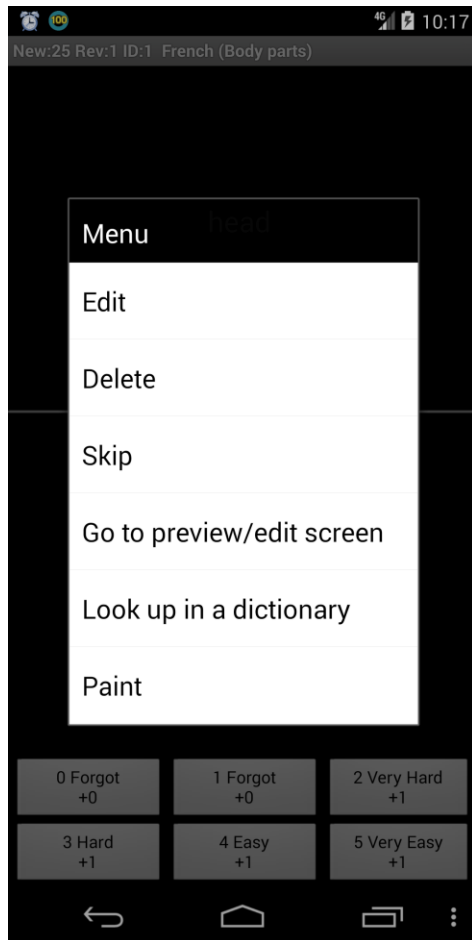

Bug trigged Flow:

Click "french-body-parts.db"   click "show answer"   long click "la tete"

Click "Look up in a dictionary"   Error message triggered
