23.Nectroid: ChatGPT4 response (com.kvance.Nectroid_11_src_oracle_0(12).mhtml)

Based on the provided app sequence and the screenshot, there is a UI error. The error message "Playlist update failed" appears at the bottom of the screenshot, which does not correspond to any text provided in the actions sequence. There is no mention of a failed update or any action that should result in such a message. Therefore, the presence of this error message is inconsistent with the expected output from the provided sequence of actions.

Final Decision: Yes, there is a UI error. The error message displayed does not correspond with the expected output from the action sequence provided.

On start up the app, it pop up error messages.
